Dear Ms. Veatch,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. Your email will become a part of ND-2015-20-E - Duke Energy Carolinas: Foothills Transmission and Substation Project- 45-Mile Transmission Line Between Asheville, NC, Power Plant and New Substation Near Campobello, SC, and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Coordinator

Subject: Duke Power Transmission Plan, docket number ND-2015-20-E.

Duke Power needs to be putting its vast financial, scientific and research resources into creating power sources that don't destroy the ozone, the aquifer, and the natural beauty of the land. The huge power transmission lines proposed for Polk and surrounding counties are monstrosities of a time gone by. No one wants to see them. If there must be power lines, then they should be underground.
